TIP #1

When entering the amount of the check in the app, please do NOT add a \$ sign, and it is not necessary to add .00 after you enter the dollar amount.

TIP #2

When taking pictures of the front and the back of the check, please make sure you are taking the pictures in landscape/horizontal mode. Make sure to use a dark background, so all four corners of the check are visible.

TIP #3

No need to write anything on the back of the check. Snap the front, then the back, and select "submit item" and get an immediate confirmation when your item has been successfully submitted.

Digital Checks

Be sure to add your bank information under the profile tab prior to submitting your payment.
